TROY'S
CHAMBER OF COMMERCE

Serves You!!!!!

Organized 47 years ago, the Chamber of Commerce long ago became an essential factor in the civic life of the Troy area.

Having for its objective, the fostering of trade and industry, it has consistently cooperated with all city, civic, social and educational groups in order to make the community one of the most progressive and modern in America.

Its program embraces duties of many kinds — the locating of industries, matters of taxation and civic movements, public safety and health, conventions, retail trade, commercial activities, municipal, State and Federal legislation.

It is intimately acquainted with available factory space, industrial sites, the labor situation, taxation, transportation, housing, etc.

The Chamber's effectiveness is measured by its strength. It is non-political and non-sectarian. You are cordially invited to join with the hundreds of men and women who comprise the membership of the Chamber.

INTRODUCTION

R. L. POLK & CO., Inc., publishers of more than 800 city, county, state and national Directories, present to subscribers and the general public, this, the 1947 edition of the Troy City Directory; including Cohoes and Waterford; Watervliet and Green Island.

Confidence in the growth of the industry, population and wealth, and in the advancement of the civic and social activities of Troy and vicinity will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting these cities to the world.

The enviable position occupied by R. L. POLK & CO'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Troy Directory will fulfill its mission as a source of authentic information pertaining to the community.

Six Major Departments

The six major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 7 to 24 for Troy, 558 to 561 for Cohoes and Waterford and 709 to 711 for Watervliet and Green Island, on white paper, presents lists of city, county, state and federal officials; post office and public school Directories; and statistical review.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, on white paper, is included in pages 33 to 355 for Troy, 567 to 667 for Cohoes and Waterford and 713 to 809 for Watervliet and Green Island. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of these communities and the name, official personnel, nature and address of each firm and corporation.

THE RURAL ROUTES, on white paper on pages 356 to 366 for Troy, 668 for Cohoes and 813 to 814 for Watervliet.

THE BUYERS' GUIDE, beginning opposite page 368 and separately paged from 1 to 96, on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Troy and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In progressive communities like Troy and Cohoes, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY, on yellow paper, is included in pages 369 to 422 for Troy; 423 to 436 for Cohoes and Waterford; 437 to 446 for Watervliet and Green Island. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 449 to 555 for Troy; 669 to 708 for Cohoes and Waterford; 817 to 849 for Watervliet and Green Island. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant owned homes and the symbol 🔔 preceding the names which indicates that there is a telephone at that address.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Troy and vicinity.

The Troy Directory Library

Through the courtesy of the publishers of the Troy City Directory, a Directory Library is maintained in the offices of the Troy Chamber of Commerce, for free reference by the general public. This is one of more than 500 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return

R. L. POLK & CO., Inc.
Publishers

TROY, NEW YORK

"The Collar City"

"County Seat of Rensselear County"

Form of Government: Mayor and Board of Aldermen. Board consists of seventeen aldermen, one from each ward.

Population: 70,304 (United States Census, 1940). Present estimate 76,000.

Area: 9.8 square miles.

Altitude: 34 feet to 300 feet.

Parks: 11, with 310 acres.

City's Bonded Debt: General debt, $3,134,025.

Water Works Bonded Debt: $477,900.

Amusements: Largest theatre or auditorium seats 2,250 people. There are 10 theatres, with a total seating capacity of 11,230 people.

Hospitals: 5.

Education: Number of schools, 12, including 1 High School. Number of pupils in public schools 5,653; in private schools 763; and parochial schools 5,630. Total of public school teachers is 237. Value of all school property approximately $2,363,280. **Lansingburgh,** 5 public schools; including 1 Junior High and 1 High school, 1,844 pupils; 81 teachers; value of public school property $1,482,000. The city also has 11 parochial schools, 1 Catholic Central High school and LaSalle Institute.

Libraries: There are 202,174 volumes in the libraries of the city.

TROY, NEW YORK

Troy, a commercial, industrial and educational center at the head of tidewater navigation on the Hudson River and at the terminus of the Erie and Champlain Divisions of the New York State Barge Canal, is most advantageously located at the intersection of the main trade and travel routes by water, rail, highway and air. These routes extend north and south along the Hudson Valley, eastward in approximation with the old Mohawk Trail and west through the fertile valley of the Mohawk River, which finds its confluence with the Hudson opposite this city. Although the Federal Dam here lies 156 miles from the ocean, there is an average tide of 3.62 feet.

A settlement was started about 1786 at Vanderheyden's Ferry, not far from the Indian village where Uncas, hero of J. Fenimore Cooper's "Last of the Mohicans", was born, and in 1789 it was named Troy, the first of that series of cities and towns in New York State which took classic names. It promptly became the county seat of Rensselaer County, formed of that section of the original Rensselaerwyck Manor lying east of the Hudson River.

Troy is the center of a compact urban population of about 129,000 comprising five **cities and villages, with Watervliet, Cohoes, Green Island and Waterford connected by** five bridges, thus forming a part of this city's commercial and industrial life. **It is the wholesale and retail trade center and the principal market of a population of upwards of half a million in the fertile agricultural regions to the north and east which are dotted by many thriving industrial villages, attractive residential hamlets and resort regions.**

A distinguishing feature of Troy industrially is the variety of its enterprises. For nearly a century, Troy has been the world center of collar manufacturing, giving it the name of "The Collar City". A Troy housewife, Hannah Lord Montague, invented the detached collar in 1827. Yet in spite of the dominant part that the textile plants play in the life of the city, there are many large employers of men among Troy's 140 plants with more than 11,500 workers who annually turn out products worth 60 million dollars.

The first settlers, Dutch and New Englanders, took advantage of natural water-power to develop industries and the river for commerce and trade. Their enterprising descendants built the first railroad to Saratoga, a highway and railroad westward; and to the eastward a railroad, and projected the Hoosac Tunnel. Today Henry Ford's hydro-electric development at the Federal dam generates over 30,000 horsepower to operate the big Ford Motor Company on Green Island. Once the seat of the iron and steel industry in America, using the fine ores from Port Henry on Lake Champlain, Troy still has important iron industries producing merchant iron, rail joints, springs and other iron products. In Troy foundries were made in 1861-62 the armor plates for the famous Monitor, which was sponsored by two patriotic Trojans, John A. Griswold and John F. Winslow. The United States Arsenal across the river in Watervliet makes big Navy and seacoast guns, and during World War II employed more than 8,000 persons.

The $6,000,000 New York Power and Light Corp. Fuel plant supplies gas for lighting and coke to Troy and neighboring municipalities and produces important by-products. Also at the focusing point of the New York Power and Light Corporation's great power transmission system, Troy's industries are amply supplied with needed electrical energy at favorable rates. Among Troy's unique industries are plants which manufacture valves, bells, and surveying instruments, which go to all parts of the world. Among its other well-known products are shirts, men's, women's and children's clothing, underwear, yarn, paper boxes, bells, carillons, brushes, brick, paint, abrasives, cigars, building trim, hospital apparel, farm implements, chemicals, knit goods, pig iron, sportswear, varnish, and a variety of other manufactured products. Laundries and bleacheries are among the allied plants. It is the home of Sanforizing.

The municipal services of the city are maintained on generous lines and are modern in every particular. Troy has upwards of 95 miles of paved streets, many of which are asphalt, or bitulithic surfaced. An extensive ornamental lighting zone covers the business centers. The city is provided with a $4,000,000 gravity water supply adequate for all future needs, a mile of concrete docks bordering the Troy harbor, underground telephone, telegraph and electric wires, modernly equipped centralized police and fire headquarters, with completely motorized fire apparatus and trained firemen in municipal employ, and a complete sewage system. Its Fire Department has an enviable reputation for efficiency, training and excellent equipment. Troy was the second city in America to provide complete two-way radio coverage of the city with police radio cars, and its crime record is unusually low.

With a total assessed valuation of $70,949,580, Troy's municipal credit is well established and its bonds are in demand at a good premium. The city operates under the uniform charter for Second Class Cities. Its system of current tax collections saves heavy interest charges, and its improvements and supplies are contracted for under the competitive bidding plan.

The city exercises its impulses along aesthetic and public welfare lines freely. Its 11 parks containing 300 acres, serve every section of the city. The facilities under the direction of the Recreation Commission also include a municipal golf course, playgrounds, recreation centers, a swimming pavilion and public baths. In the Public Library, a magnificent replica of Italian Renaissance architecture, and in its three branches are 86,866 volumes. There is an active City Planning Commission and the city has many architecturally attractive public and private buildings and monuments, including one of the finest Music Halls and public auditoriums, in the country, a health center, monumental banking buildings and other business and organization structures that add beauty to the vistas of the busy streets.

Troy has 21,000 homes in its fine residential sections, in the city proper and on its hills, above the business and industrial center, spreading out into an expansive rolling plateau into the country beyond where there are attractive suburban homes on every side. A very large part of all these are individual homes, many of them on spacious grounds, and owned by the occupants themselves. Housing conditions are in general much above the average city, rents rule considerably lower and three building and loan associations, an active real estate board, banking interests, the building supply manufacturers all encourage and aid home ownership among industrial workers.

Troy occupies an enviable position as an educational center, for here are located Rensselaer Polytechnic Institute, Russell Sage College and Emma Willard School.

Rensselaer Polytechnic Institute, founded in 1824, is the oldest college for engineering and science in America, and conferred the first degrees in engineering ever conferred anywhere. Its normal peacetime enrollment is about 1,450; but it has temporarily expanded its facilities to accomodate between 3,000 and 4,000 students, mostly veterans, until the postwar emergency situation is over. Rensselaer was the first college in New York State chosen by the U. S. Navy for a Naval Reserve Officers Training Corps unit. This was established in 1941. R. P. I. owns and operates the oldest college broadcasting station in continuous existence, WHAZ, which holds many records for radio transmission. During the war, R. P. I. conducted a large research program for the Army and Navy and other government agencies, and for industries. It also conducted programs of special war training courses for more than 9,600 war workers.

Russell Sage College founded in 1916 as a college for women has gained high standing, now having 856 students; and the Emma Willard School, dating back to 1816, the first school for the higher education of women, now a girls' preparatory school with approximately 375 students. The Institute, Emma Willard School and Russell Sage College are housed in collegiate buildings representing an outlay of more than $4,000,000 and surrounded by beautiful and sightly campuses. The city also has 3 high schools, 14 public schools, several in new model buildings, 11 parochial schools, LaSalle Institute, a Junior High and several private schools, providing adequately for the needs of its nearly 15,000 pupils. Troy is also a recognized musical center, with two complete conservatories of music and many individual and group instructors, a famed male and female Vocal Society and a fine Music

Hall which affords the presentation of the representatives of the world of music. Troy's own radio Station W T R Y, operating on 980 kilocycles, covers a radius of 100 miles. It is one of the basic outlets of the Blue Network.

Favored as a center of travel by automobile trunk lines on the most direct route from the metropolis to Saratoga and the Adirondacks, Troy's main automobile arteries in both directions, length-wise and crosstown, are direct, with no circuitous or confusing routings. Within the county and a radius of perhaps twenty miles are upwards of thirty sizable lakes and ponds, many of which have been developed into summer residential colonies or resorts within easy access of its urban population. A choice of scenic routes leads to the East, by way of the Taconic and Mohawk trails; Route 66 through Averill Park and "Land of Lakes" to Route 20 via Pittsfield, Mass., or south from Troy along the eastern rim of the beautiful Hudson Valley to Route 20. Motorbus lines and freight trucks run in all directions, a dozen regular passenger bus lines starting from the Bus Terminal.

Three leading railroads unite in a joint terminal at the Troy Union Station, the Boston and Maine, the New York Central, and the Delaware and Hudson Lines, but each road maintains spacious freight houses and yards separately. Rutland Railroad trains reach Troy over the Boston and Maine tracks. Several freight barge and towing lines on the river and canals furnish service for water transportation. Troy's airport renders service to private fliers and expects to fill an important place commercially at the junction of the main air routes of the East.

Troy is especially noted for generous philanthropic expenditures. In 1947, the Allied Communities War Chest Campaign raised more than $225,000 for 21 agencies. Troy has 70 churches, 3 general hospitals, 1 maternity hospital, 1 mental hospital, 2 day nurseries and 12 charitable institutions and homes. There are 2 Y M C A's, a Y W C A, Masonic, Elks, Knights of Columbus and Odd Fellows buildings, Troy Club, Labor Temple, 2 country clubs with golf courses, boat and athletic clubs, lyceums, fraternity houses, fraternal organizations and club quarters and many church clubs and organizations. It has 10 theatres and movie houses, including 2 that rank in size and architecture with leading metropolitan theatres. Troy is served by 3 representative newspapers, 2 dailies, 1 Sunday and 1 weekly publication.

Because it is the business, marketing and amusement center of an urban, suburban and rural population of upwards of a half million people, Troy has wholesale and retail establishments which are comparable with those of many larger but more isolated cities. Its wholesale establishments and distributing plants ship by freight, express, truck and mail to many points within a radius of 200 miles or more. Its 3 large department stores, which are the equal of many metropolitan rivals because within a few hours of the style centers of the East, its large furniture emporiums and its hundreds of retail stores and specialty shops, especially its shops for women's wear, are on a par with the better class of stores in any city. Shoppers come from many miles to trade here and find that for style and quality Troy stores rank with the best.

Troy's million-dollar hotel, the Hendrick Hudson, financed and built by its own citizens, and operated with Hotel Troy, previously built, also through the Chamber of Commerce, is in the American chain of hotels. These two fine hotels, with four or five other commercial houses and family hotels make Troy a favored convention city, which during the last season entertained several state conventions and many minor and group conventions. The spacious crystal ballroom of the leading hotel and the Music Hall auditorium seating more than 1600 provide ample accomodations for large gatherings of delegates.

Troy is known to fame as the progenitor of the nickname by which the United States is commonly known, "Uncle Sam", when, during the War of 1812, a cantonment was established at Greenbush, south of the city, Samuel Wilson, a leading citizen, brick manufacturer and dealer in cattle, who was popularly known to Trojans as "Uncle Sam," undertook a contract to pack and ship beef and other meats to the military camp, the wooden casks were stamped by the inspector, Elbert Anderson, with the initials, "E. A., U. S." The Troy soldiers knowing whence the meat came, facetiously applied the name to it, calling it "Uncle Sam's beef," and explained that that was what the "U. S." on the kegs stood for. The other soldiers carried the name away as an appellation for the United States, and when later the soldiers were offered public lands in the West, a song sprang into vogue having the theme, "Uncle Sam is Rich Enough to Buy Us All a Farm," and the name stuck. In somewhat similar manner the name of "cop" as applied generally to policemen was derived from the name of the first Chief of Police of Troy, Amasa J. Kop. The name "Giants" as applied to the New York National League Baseball team came from the six stalwart six-footers of the Troy National League team when they and the baseball franchise were transferred to New York City in the early 80s.

Troy is known in military history not only for the fact that two Trojans made the building of the Monitor possible but for many other outstanding incidents. The Second Regiment, recruited in this city and which departed for the war front May 18, 1861, was the first Northern regiment on Virginia soil. In command of that department was Gen. John E. Wool, a Trojan, who was an officer and a hero in three United States wars, and the monument to his memory rising above Oakwood Cemetery is the largest single monolith of granite ever quarried and set up. Here is Earl Crematorium, said to be the finest in the world. Two other Civil War generals are buried in Oakwood, Gen. George H. Thomas, the "Rock of Chickamauga," and Gen. Joseph B. Carr. In the World War, another Second Regiment from Troy, became part of the 105th Infantry of the famous 27th Division which broke the Hindenberg line in September, 1918.

With living, housing and other conditions favorable to labor, and a large skilled industrial population upon which to draw, the Troy Chamber of Commerce is attempting to further diversify the industrial life of the community. Civic, financial, business and municipal authorities are in co-operation. Communications should be addressed to the Mayor-City Hall, or the Chamber of Commerce, Troy, N. Y.

AIR MAIL SERVICE

United States Air Mail Service

Five cents for each ounce or fraction thereof; to any part of the United States.

May be registered, insured, sent C. O. D. or Special Delivery.

Air mail stamps and distinctively-stamped envelopes are issued for prepayment of postage on air mail. Ordinary stamps may also be used.

Air mail should be plainly marked "VIA AIR MAIL" in the space immediately below the stamps and above the address.

Canada (same as above).

Air Mail Mexico

Rate of postage to Mexico: Five cents for each ½ ounce.

Dispatched by the United States Air Mail Service and in Canada or in Mexico by the Air Mail Services in those countries. For additional information telephone your local post office.

United States Air Mail Service to Central America, South America and the West Indies

For information regarding this service telephone your local post office.

Air Mail in Other Foreign Countries

For information regarding this service in Foreign Countries, apply at or telephone your local post office.

FEES IN ADDITION TO REGULAR POSTAGE

SPECIAL DELIVERY

FIRST CLASS ONLY—2 pounds or less, 13 cents; over 2, not over 10 pounds, 20 cents; over 10 pounds, 25 cents.

MAIL OTHER THAN THAT OF THE FIRST CLASS will be given the most expeditious handling and transportation practicable, and in addition receive immediate delivery at the office of address, upon payment of the following special-delivery fees:

2 lbs. or less.....17c
Over 2 lbs., but not over 10 lbs...25c
Over 10 lbs. 35c

"Special Delivery" must be so indorsed.

SPECIAL HANDLING

(Without Special Delivery)

FOURTH CLASS: 2 pounds or less, 10 cents; over 2, not over 10 pounds, 15 cents; over 10 pounds, 20 cents.

"Special Handling" must be so indorsed.

SENDERS' RECEIPTS FOR DOMESTIC ORDINARY MAIL

A receipt (certificate of mailing) is furnished the sender of domestic ordinary mail of any class upon payment of 1 cent for each piece. This fee does not insure against loss, rifling or damage, but merely furnishes evidence of mailing, and no receipt will be obtained from the addressee on delivery. Additional duplicate receipts may be obtained upon payment of 1 cent each.

Indemnity not exceeding	200.00..	25c

Fee for return receipt, 3 cents extra.

Limit for Canal Zone is $200, and Philippine Islands, $100

AIDS TO PROPER MAILING

Write name and address plainly and completely.

Place name and address of sender on all matter.

Prepay postage fully on all letters and parcels.

Always address mail for city delivery to street and number and request correspondents to do likewise.

Use designation North or South, East or West when it is a proper part of the address and save delay in delivery.

Insure valuable parcels.

Wrap parcel post carefully in heavy paper and tie knots securely.

You will often gain a day's time in delivery by depositing mail as soon as it is ready.

The Alphabetical Section—

A guide to the population, its activities and addresses.

The Buyers' Guide—

To the commercial, professional and industrial interests.

The Classified Section—

A guide to the many business interests, arranged under typical headings.

The Householders' Guide—

A guide to the streets and avenues and the residents and tenants thereon.

The Guide Post to the City

Is Never Further Removed From You Than the Nearest City Directory

Anything and Everything you might wish to learn as regards the civic, social, commercial or industrial life and phases of the community is therein, at your finger tips, in a concise, correct, non-partisan, and detailed manner. The information is completely standardized in order that it may be just as easy for you to find what you wish to determine in any City Directory, as in the Directory of your own city.

For free access to the books of other cities visit the nearest City Directory Library. A list of the City Directory Libraries, together with a privilege card will be sent you upon request to

R. L. POLK & CO., Inc.

How the City Directory will help you

Some people regard the City Directory as merely a big book that cannot concern or be of any use to them, personally.

If they realized what it contains, and how it would answer many little questions that come up every day, they would use it in their personal as well as business affairs.

Well, now—doesn't it concern you? It has your name, business and address correctly listed, where your friends, looking for you, will find it.

It has this same information about your friends, and anyone else in the city you may be interested to look up.

It has complete information about the business houses of the city, telling who sells what, and where. It has detailed accounts of progressive houses, who realize they will logically be looked for in the "Selling Section."

It tells how all the streets run, giving numbers at corners; the clearest map of the City; Buildings, Government, Societies and a wealth of facts about the City that can only be appreciated by glancing at the Index.

You will be repaid for a little time spent in finding out how to use this book full of "Who and Where" information; repaid in convenience, in accuracy, and in time saved in your everyday affairs. **But be sure you use the latest,** as an old edition will mislead you.

R. L. Polk & Co., Inc.

PUBLISHERS

179 LINCOLN STREET, BOSTON, MASS.

You are consulting this Directory!

So are other Business Men in all parts of the World.

How do you stand with regard to them?
Is your representation adequate?
Do your listings cover all your interests?

Advertisements in this Directory cost little, reach every corner of the country through Directory Libraries and Business Houses. This Directory is consulted daily. It will pay you to get in touch with the publishers.

POLK'S TROY CITY DIRECTORY 1947

Copyright, 1948, by R. L. Polk & Co., Inc.

Wife's Name—Appears in parentheses following husband's name when obtainable.

Removals—Against names showing removals from the city, the post office is given; if into another state, both the post office and state are given.

Deaths—The date of death of citizens whose names appeared in the Directory, dying during the past twelve months, is recorded against the name in the present book.
